

Main Process Plant Building Controlled Deconstruction Update

Week of January 30, 2023

Deconstruction – Start of CPC West Wall

The Department of Energy's West Valley Demonstration Project (WVDP) in New York commenced deconstruction of the Chemical Process Cell west wall (top photo), with efforts focused on the outermost three(3) feet of the five(5) feet thick walls. Crews also completed the deconstruction and debris packaging of the Extraction Cell #2 west wall (bottom photo).
